The Maintenance Professional's Choice

UNDERCOAT and SOUND DEADENER

64314

A super durable, flexible, rubberized coating that protects auto under bodies against corrosion caused by water, road grime and salt. Reduces unwanted noise and vibration. Stays pliable in heat or cold. Resists cracking, peeling and abrasion. Sprays as a tough black sealant that goes on thick and sets up fast. Can be painted when dry.

- Seals with a Thick Black Rubberized Coating
- Prevents Rust
- Muffles Sound

FOR USE ON:

- Auto Underbodies
- Auto Fleets
- Construction Equipment
- Stainless Steel Sinks
- Air Conditioning Pans
