

TERAND

The Maintenance Professional's Choice

PENETRATING CATALYST

50615

FOR USE ON:

- Auto Mechanics • Marine Repair
- Utility Companies • Serviceman
- Industrial Plants • Refineries
- Food and Bottling Plants • Construction
- Heavy Equipment • Firearms
- Railroads • Trucking • Oil Fields

- Creeps and Pulls Itself up, around and into Cracks, Crevices and Threads with Powerful Capillary Action
- Contains Built-In Cleaners which help Dissolve Solidified Grease, Oil, Accumulated Rust and Dirt

A forceful spray aerosol which provides super fast penetration through rust and corrosion to loosen frozen nuts, bolts and mechanical parts. Lubricates and reduces wear over a broad temperature and pressure range. Safe on aluminum, plastic and paint. Stops squeaks fast. Truly unmatched performance with regard to penetration and creeping ability. Will not gum-up or harden. The finest true penetrant money can buy.

FOR USE ON:

- Bearings • Gears • Relays • Lug Nuts
- Threaded Parts • Linkages • Fasteners
- Pulleys • Frozen Nuts and Bolts • Locks
- Hinges • Screws • Clamps • Tools
- Engine Parts • Motors • Starters • Generators

- Cuts Through Rust and Corrosion at Lightning Bolt Speed
- Safe on most Plastics, Rubber and Painted Surfaces
- Performs Especially well in Corrosive Environments such as those found near Salt Water, Fresh Water, Chemical Fumes and Mines
